INSTRUCTIONS:

- STEP 1:** Position 2 stakes (A & B) at least 10' apart as shown in the diagram. When positioning the stakes make sure that they are parallel to the longest length of the pool and at least 3' away from the pool.  
 \*Note: Do not remove until the liner has been installed.
- STEP 2:** Define the break-off and pad with measurements from these stakes.
- STEP 3:** Define the shape of the POOL by taking measurements, approximately every 2' around the perimeter of the pool.  
 \*NOTE: Decrease the distance between the points you are using to 6' around the reverse or small radius.
- STEP 4:** Fill in the other measurements required as indicated by the boxes provided.  
 \*NOTE: PERIMETER MUST BE PROVIDED SO THAT THE PLOT MEASUREMENTS CAN BE VERIFIED!!!
- STEP 5:** If stakes are positioned differently from the drawing, indicate the position.
