Vinyl Covered Stairs Tab-Lock Install System

U.S. Patent Application
Serial No. 13/339,816

- Start at the bottom stair
- Lay integrated step flap over plastic spacer.
- Place knurled retainer rod over flap and press into plastic spacer using included wedge install tool
- Pull up on flap to snug vinyl into back of step
- Use same process at ends of steps
- Proceed to next step and repeat
- Knurled retainer rod is specially designed to hold vinyl in place, yet allow for horizontal adjustment for perfect fit
- Retainer rod is easily removed for liner re-installation
